

CSS Basics

Exercises

1. Create a table as shown below. Use pseudo-class selectors to highlight the odd rows.

| Country | OrderID | Order Amount |
|--------------|---------|----------------|
| USA | 1000 | \$1,300 |
| USA | 1001 | \$700 |
| CA | 1002 | \$2,000 |
| CA | 1003 | \$1,000 |
| Total | | \$5,000 |

- Background color of the heading cells: **#427fef**
- Background color of odd rows: **#eef7ff**
- Border color: **#c4dcf3**

You can find the solution in the zip file attached to this lesson in the **table** folder.

2. Create a box as shown below.

- Dimension: 300px x 300px
- Background color: **tomato**
- Shadow color: **lightgrey**

You can find the solution in the zip file attached to this lesson in the **box** folder.
